Please check all that apply: <input type="checkbox"/> Recurring Frequency (if recurring): Monthly, Weekly, Daily <input type="checkbox"/> Contains sensitive data (PHI, passwords, etc) <input type="checkbox"/> Client/Vendor will transfer data to BCBSRI <input type="checkbox"/> Client/Vendor will retrieve data from BCBSRI <input type="checkbox"/> BCBSRI will transfer data to Client/Vendor <input type="checkbox"/> PGP will be used to encrypt the data prior to transmission (N/A for 834, 837 x12 Files) <input type="checkbox"/> One time only	

Approximate size of file in MB: N/A

Additional Information:

Section 5 Select Connectivity Mode

Secure FTP

HTTPS

Production/Partner System

Production/Partner System

SFTP Preferred

HTTPS Preferred

DNS name: bluegateway.bcbsri.com

DNS name: https://bluegateway.bcbsri.com

IP Address: 20.62.86.171

IP Address: 20.62.86.171

Port/Protocol: SSH (TCP-22)

Port/Protocol: (TCP-443)

Additional Information

For Inbound SFTP file transfers the vendor is required to provide BCBSRI the public key that will be used with the login provided by BCBSRI.

For Inbound web browser access BCBSRI will provide the vendor a certificate that they will need to import into their web browser.

Preferred Algorithm SSH Public Key – RSA/2048

52.177.166.114 and 40.65.245.201 are the BCBSRI outbound IP addresses which must be whitelisted by vendors who only allow known IP addresses to connect.

BCBSRI prefers to have the following naming convention for all files.

Region_OriginatorDescriptor_SubmitterId_834_YYYYMMDD_HHMMSS

Section 6 NTT Data Contact Information

Group Name: SI Admin

E-Mail Address: si-admin-team@bcbsri.org

After hours contact procedure: BCBSRI Service Desk, 401-751-1673 or 1-855-721-4211

NOTE: The normal change control window for implementing firewall changes is Tuesday and Thursday after 5:30pm. Minimum two days advanced notice for scheduling/approval is required.

Section 7 BCBSRI Internal information for Setup (Should be provided by department at BCBSRI sponsoring this transfer)

- Department sponsoring this transfer
- From where to pick the outbound files to move to mailbox or to send to user (Example: Datastage server, JCAPs server, H Drive etc)
- Will this include TEST or PROD or both files
- Interested party email id's who will be receiving notifications for file transfer success or failure
- Any other special request.
